*"We're there in name only," said Teri Charest, spokeswoman for U.S. Bank. "We're trustees. We have a very limited role... The real owners, the banks say, are the holders of the mortgage-backed securities - financial instruments comprising a pool of mortgage loans that are held in a trust and sold."*

The FLORIDA BANKERS ASSOCIATION noted in a filing with The SUPREME COURT OF FLORIDA, in CASE NO.: 09-1460, IN RE: AMENDMENTS TO RULES OF CIVIL PROCEDURE AND FORMS FOR USE WITH RULES OF CIVIL PROCEDURE:

*"In actual practice, confusion over who owns and holds the note stems less from the fact that the note may have been transferred multiple times than it does from the form in which the note is transferred. It is a reality of commerce that virtually all paper documents related to a note and mortgage are converted to electronic files almost immediately after the loan is closed. Individual loans, as electronic data, are compiled into portfolios which are transferred to the secondary market, frequently as mortgage-backed securities. The records of ownership and payment are maintained by a servicing agent in an electronic database.*

*The reason "many firms file lost note counts as a standard alternative pleading in the complaint" is because the physical document was deliberately eliminated to avoid confusion immediately upon its conversion to an electronic file. See *State Street Bank and Trust Company v. Lord*, 851 So. 2d 790 (Fla. 4th DCA 2003). Electronic storage is almost universally acknowledged as safer, more efficient and less expensive than maintaining the originals in hard copy, which bears the concomitant costs of physical indexing, archiving and maintaining security. It is a standard in the industry and becoming the benchmark of modern efficiency across the spectrum of commerce—including the court system.*

*The information reviewed to verify the plaintiff's authority to commence the mortgage foreclosure action will be drawn from the same database that includes the electronic document and the record of the event of default. The verification, made "to the best of [the signing record custodian's] knowledge and belief" will not resolve the need to establish the lost document."*

## **Hey Ma, my chili has no meat or tators!**

“Navajo Code Talkers”<sup>2</sup> were young Navajo men who transmitted secret communications on the battlefields of WWII... “**These modest shepherders and farmers** were able to fashion the most ingenious and successful code in military history.” “ne-he-mah" (our mother), which means America.”

As history notes; these individuals saved many lives. The action of the man will define the soul of the man.

## **The War Resolution**

Whereas the Government of Germany has formally declared war against the government and the people of the United States of America:

Therefore, be it Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, that the state of war between the United States and the Government of Germany which has thus been thrust upon the United States is hereby formally declared; and the President is hereby authorized and directed to employ the entire naval and military forces of the government to carry on war against the Government of Germany; and to bring the conflict to a successful termination, all of the resources of the country are hereby pledged by the Congress of the United States.

### **Sun Tzu's The Art of War XIII The Use of Spies**

7. Hence the use of spies, of whom there are five classes: (1) Local spies; (2) inward spies; (3) converted spies; (4) doomed spies; (5) surviving spies.

8. When these five kinds of spy are all at work, none can discover the secret system. This is called “divine manipulation of the threads”. It is the sovereign’s most precious faculty.

9. Having local spies means employing the services of the inhabitants of a district.

**10. Having inward spies, making use of officials of the enemy.**

Today’s financial war is not under any declaration. One has to only wonder to what degree of infiltration has been achieved into the governments of the world.

As this author has noted before; it is not the governments that are at fault, it is the fault of a few persons within the governments. Time to vote them out!!!
